

No lockdowns in Mind

May 21, 2020 | [17 comments](#)

Your local, regional, or national government may have ordered you to “Stay home,” while the pandemic passes, but that doesn’t mean your thinking has to “Stay home!”

We live in a universe of infinite Mind, and there are no limits on where your thought can go to stay productive, to be happily employed and to be working out useful purposes.

I’m inspired by the story in the Bible of Paul and Silas when they were captured by a mob and ordered to be locked up in prison by local officials who wanted them off the streets. For extra caution, the prisoners were cast into the inner dungeon, and their feet were locked solid in stocks. If there ever was a “lockdown,” this was it. Their human plight looked hopeless. But Paul and Silas did not allow their thinking to go into lockdown mode.

The Bible states, **“Around midnight Paul and Silas were praying and singing hymns to God, and the other prisoners were listening. Suddenly, there was a massive earthquake, and the prison was shaken to its foundations. All the doors immediately flew open, and the chains of every prisoner fell off!”** ([Acts 16:25-26, NLT](#)).

Paul and Silas were singing hymns and praises to God! Their thinking did not reflect the plight of their bodies. Their thinking transcended the physical condition they faced and went into the realm of Mind where there are no limits. They were so clear on their spiritual freedom with God, that they had no fear of the physical constraints, and the physical constraints fell away.

We can do the same if under orders to “Stay home.” Our thinking doesn’t have to “Stay home.” It can go anywhere. It can go anywhere that Mind is, and that’s everywhere that God is.

There are no lockdowns in Mind. God is unending good, unbounded love, ever-productive Life. Go there with your thought and soar free!

There isn’t any government order that can hold back your thought from being more productive and gainfully employed than ever.
