

You can never lose your most important job

From a spiritual point of view, your #1 job is to listen and follow God's direction as it comes. The one all-knowing Mind is feeding you valuable ideas that tell you what to do next and how to bring out the best results. As we listen and follow, God leads us forward.

Human jobs come and go. They are sometimes unpredictable and not always what one expected. However, there is a bigger picture of employment at work that still provides for us to live and work productively and profitably.

God gave you talents and skills to employ for useful purposes, and the universe of Love provides opportunities for those skills to be put into practice.

Your #1 skill is the ability to humbly listen and hear where divine Mind is taking you next.

What your job looks like humanly may not always be per your preconceptions, but that's okay. God's plans are always better than your plans. The divine will is always working out some great and grand purpose that takes you in a progressive direction.

As the Bible reminds us, **“Trust in the Lord with all your heart, And lean not on your own understanding; In all your ways acknowledge Him, And He shall direct your paths”** ([Proverbs 3:5,6, NKJV](#)).

Trust in God. That's your #1 job! You never lose it. Keep listening, and you'll know what to do.
