

A solution to the pandemic is already here

May 25, 2020 | [29 comments](#)

Contrary to popular belief, there is a workable solution already on earth to stop the pandemic. It's a cure practiced by Jesus Christ 2000 years ago. It's been proven effective by many people since, and it's fully explained in the teachings of Christian Science today. Understanding the omnipotence and omnipresence of God, prevents and cures disease.

It is a method of healing that so few people understand, unfortunately, that it is not reported in the press or circulated in the popular science journals as a remedy. Most of mankind is looking to the development of a material vaccine as the solution, and thus has turned attention in that direction.

Nonetheless, those who do practice the omnipotence of God in their lives are quietly moving along in their spheres of activity demonstrating immunity to the virus and proving the power of Truth to protect them from harm. Or, if feeling an effect from it, relying upon the dominion of God over their health to neutralize any suffering and remove it from their experience. Spiritual mindedness is the best antidote for any disease.

From what I see and know about metaphysical healing, I can't help but believe that if all the fear, anxiety and worry in the world right now over the coronavirus were replaced with knowing the omnipresence of Love at work supporting and sustaining the health of every man, woman and child, that the pandemic would vanish.

Mankind doesn't have to wait for the development of a vaccine to appear sometime in the distant future. A solution is already here.

“At a time of contagious disease, Christian Scientists endeavor to rise in consciousness to the true sense of the omnipotence of Life, Truth, and Love, and this great fact in Christian Science realized will stop a contagion”

(Mary Baker Eddy, Miscellany, p. 116).
